

AI Solutions

Powering Your Business with Intelligence and Automation

Transform your business with intelligent, AI-driven solutions that automate processes, enhance decision-making, and improve customer experiences. Alletec leverages Microsoft's AI ecosystem to deliver tailored solutions for businesses across industries.

Your enterprise applications and process automation apps have been generating mountains of data every day. Are you leveraging this data to discover new insights, and further your efficiency of decision making and automation?

Alletec brings to you modern AI solutions that help your organization streamline operations, boost productivity, and derive actionable insights. From AI-powered Copilots in Dynamics 365 to intelligent automation with Power Automate and AI Builder, we enable businesses to stay competitive in today's digital economy. Our expertise spans a broad range of AI services, including Azure Cognitive Services, Customer Insights, and Product Insights, all designed to turn data into intelligent actions.

AI-Driven Solutions and Copilots

Copilot in Dynamics 365 Business Central

Enhance your ERP experience with **AI-powered Copilots** that assist with task automation, data analysis, and reporting. From automatically generating insights on cash flow to predicting inventory needs, the Copilot in Business Central ensures your business runs smarter and faster.

Copilot in Dynamics 365 Finance

The Copilot in **Dynamics 365 Finance** leverages **AI** to optimize financial operations. It assists with budgeting, financial forecasting, and real-time analysis, helping finance teams make data-driven decisions quickly and efficiently.

Copilot for Power Platform

Power Platform Copilots assist with app building, automating workflows, and analyzing data without requiring advanced technical skills. Whether you're using **Power Apps, Power BI, or Power Automate**, the AI-powered Copilot improves productivity and enhances decision-making.

Intelligent Automation with Power Automate & AI Builder

AI Builder integrates seamlessly with Power Automate and Power Apps, allowing you to create custom AI models to automate tasks such as form processing, object detection, and prediction modeling—without writing code. Use **Power Automate** to streamline repetitive processes with AI-driven automation. From invoice approvals to data entry, Power Automate's AI capabilities reduce manual tasks and improve operational efficiency.

Customer & Product Insights Powered by AI

Unlock the power of your customer data with **Dynamics 365 Customer Insights**. Alletec integrates AI to create unified customer profiles and deliver personalized experiences, helping businesses enhance customer engagement and satisfaction. **Product Insights** leverages AI to analyze product usage and performance, providing actionable data to drive product innovation and improve customer satisfaction. This AI solution helps businesses understand customer preferences, product demand, and usage patterns in real time.

Azure Cognitive Services for Enhanced Business Intelligence

Alletec enables businesses to incorporate **Azure Cognitive Services** such as computer vision, natural language processing, speech recognition, and text analytics into their existing systems. These services allow for advanced capabilities like sentiment analysis, image recognition, and automated translations, boosting overall business intelligence. From **Azure Machine Learning** models to AI-powered chatbots and virtual agents, Alletec designs and deploys intelligent systems that improve operational efficiency and customer service through natural language understanding and automated responses.

Why Choose Alletec for AI Solutions?

- ✓ **Comprehensive AI Expertise:** With deep knowledge of the Microsoft ecosystem, Alletec integrates AI across **Dynamics 365, Power Platform, and Azure Cognitive Services** to deliver end-to-end intelligent solutions. Make a start with Alletec's AI Assessment Starter Pack to laydown an AI adoption roadmap for your business. Begin with small, but firm steps.
- ✓ **Tailored AI Solutions:** Our AI solutions are customized to address your unique business challenges, from automating workflows to delivering customer insights and product performance analytics.
- ✓ **Seamless Integration:** Alletec ensures seamless integration of AI into your existing infrastructure, allowing for scalable and secure deployments that evolve with your business needs.
