

XtendedWMS: Transforming Warehouse Operations with Microsoft Dynamics 365

Efficient warehouse management is the foundation of operational success. From managing inventory to ensuring on-time shipments, modern warehouses demand intelligent solutions that minimize errors, optimize resources, and maximize efficiency.

XtendedWMS by Alletec is a powerful, agile warehouse management system designed specifically for businesses leveraging **Microsoft Dynamics 365 Business Central (D365 BC)**. Seamlessly integrated with the D365 BC Warehouse Management Module, XtendedWMS eliminates the need for middleware, ensuring real-time data synchronization and superior inventory control.

Why Choose XtendedWMS?

XtendedWMS addresses the unique challenges of warehousing and distribution with solutions that deliver measurable results. It's ideal for businesses that:

- Seek to optimize inbound and outbound warehouse processes.
- Leverage QR or barcode scanning to enhance accuracy.
- Manage Lot/Serial-tracked inventory to reduce manual effort and ensure compliance.

Core Features of XtendedWMS

Comprehensive scanning capabilities for Goods Receipt, Bin Put-Away, Picking, Shipping, and Stock Transfers.

Advanced tools for instant stock checks with multiple views, quick bin movements, and physical stock takes.

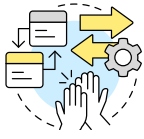

Flexible adoption with support for QR and barcode scanning on Android devices and mobile phones.

Packing module to complete the Pick → Pack → Ship process efficiently.

Seamless integration with D365 BC Warehouse Management Module for complete inventory control.

Key Benefits of XtendedWMS

Real-Time Integrations

XtendedWMS operates directly within the D365 BC Warehouse Management Module, enabling real-time posting of scanned data for precise inventory tracking.

Streamlined Operations

Simplify key warehouse activities, including Goods Receipt, Bin Put-Away, Picking, Shipping, Stock Transfers, and Bin Movements, with the power of scanning devices. Enhanced capabilities like Packing and Physical Inventory are included in Premium XMWS licenses.

Cost-Efficiency

- Eliminates the need for middleware.
- Reduces license costs with XtendedWMS device licenses, allowing shared use across multiple users.
- Minimizes operational expenses while maximizing functionality.

Enhanced Accuracy

Minimize errors through advanced QR and barcode scanning, ensuring accurate and consistent inventory records.

User-Friendly Design

- **Modern:** Works seamlessly on Windows and Android devices.
- **Intuitive:** A simple dashboard, navigation, Multi-language support and color themes make it accessible to all users with minimal training.
- **Efficient:** Scan Lot Numbers, Expiry Dates, and validate inventory data for improved productivity.

Unmatched Control, Reporting and Analytics

D365 BC remains the central inventory system, ensuring comprehensive management and visibility of your warehouse operations. Use auto generated logs and activity report for operational and performance analytics.

XtendedWMS in Action: Real-World Use Cases

Streamlining Goods Receipt and Put-Away

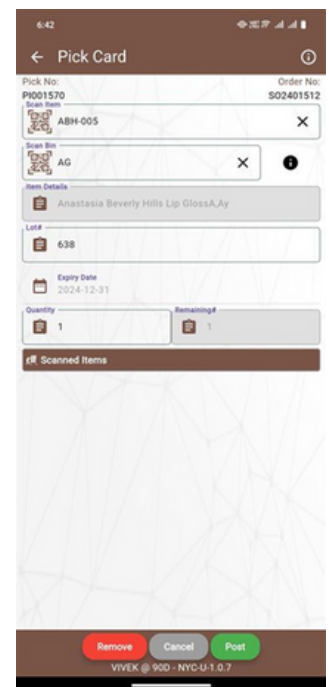

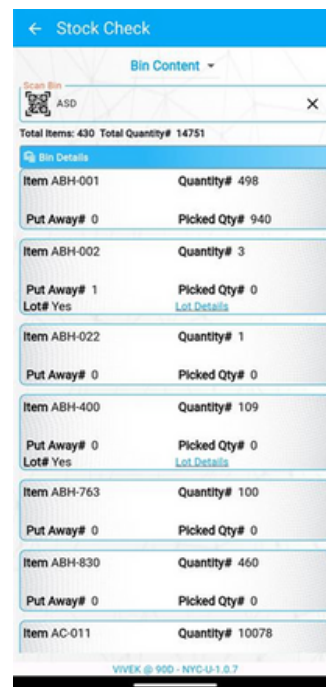

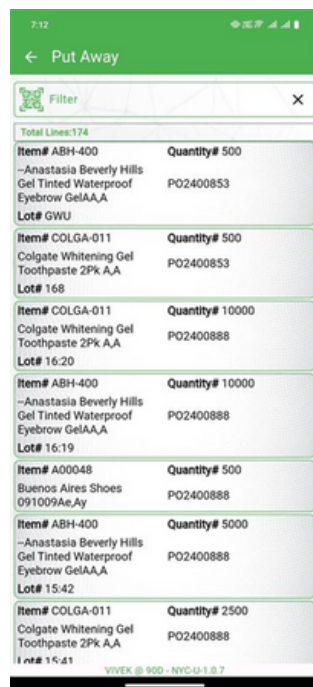

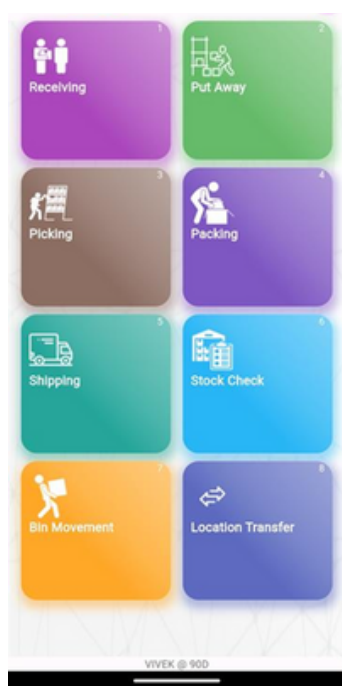

An FMCG leader uses XtendedWMS to scan incoming goods, assign bins automatically, and update inventory instantly, reducing errors and accelerating processes.

Error-Free Lot Tracking

A pharmaceutical manufacturer employs XtendedWMS for batch tracking and expiry date management, ensuring compliance and improving traceability.

Cost Optimization for Distribution Centers

A distribution business reduces operational costs significantly by managing shipments through XtendedWMS without additional Business Central user licenses.

Warehouse Management Software (WMS software) is projected to lead market growth with the highest CAGR from 2025 to 2030, driven by rising adoption among SMEs worldwide *

Built for Today's Challenges, Ready for Tomorrow

XtendedWMS goes beyond being just a warehouse management solution—it's a strategic enabler for modern businesses. By integrating the latest technology and delivering real-time capabilities, XtendedWMS empowers businesses to:

- ✓ **Meet tight delivery timelines**
- ✓ **Adapt to fluctuating inventory demands**
- ✓ **Provide exceptional customer experiences with timely and accurate shipments**
